

FINISHES AND PRICE DIFFERENTIAL GUIDE

Nevamar Finishes

Typically, Nevamar high pressure laminates are stocked in textured (T) finish. Some stock line items come standard in another finish as indicated in the product guide. Other finish options are available upon request under made-to-order guidelines. A description of available finishes is listed below. Call to inquire on availability.

ASHWOOD - An embossed, Woodgrain finish.

CHEMARMOR – A chemical resistant textured finish.

CRYSTAL - A subtle dimensional surface texture with high light reflectivity.

GLOSS - Superior gloss finish on solid colors. Shipped with a protective polyethylene film.

HI-LUSTER - A finely textured, highly reflective finish.

LEATHER – A finish that provides the supple beauty of aged leather.

POLISHED VELVET - A semi-gloss minutely grained finish.

TEXTURED – It softens Woodgrains, Patterns and Solids with a fine graining.

VELVET - A smooth, finely grained finish.

Finish Codes

The following codes identify the finish availability:

B – Leather

CA – ChemArmor

CR – Crystal

E - Non-Armored Protection™ Textured

G - Gloss

N - Hi-Luster

PV - Polished Velvet

T - Armored Protection™ Textured

V - Velvet

Z - Ashwood

Grades

Stocked

HGS - Horizontal General Purpose (H-5) Thickness: 0.048" ± .005" - 1.2mm

HGP - Horizontal Postforming (HF-4) Thickness: 0.039 ± .005" - 1.0mm

VGP - Vertical Postforming (VF-3) Thickness: 0.028" ± .004" - .7mm

Special Order :

HGF/VGF - Fire Retardant Grades (HR-5/VR-5) Thickness: 0.048"/0.032" ± .005"

HSM - Horizontal Heavy Duty (H-6) Thickness: 0.059" ± .005"

HSH - Special Heavy Duty Grade (H-12) Thickness: 0.118" ± .008"

Floor Tile Grades:

HDS (FL-6) Thickness: 0.059" ± .005"

HWH (FL-12) Thickness: 0.118" ± .008"

Static Dissipative Grades:

HGP (HF-4) Thickness: 0.039" ± .005"

HSM (H-6) Thickness: 0.059" ± .005"

FINISHES AND PRICE DIFFERENTIAL GUIDE

Sizes:

Solids: Typically stocked in T finish in the following sizes:

30x96, 120, 144;

36x96, 120, 144; 48x96, 120, 144;

60x96, 120, 144 in HGS & HGP grade.

48x96 & 60 x 144 in VGP grade.

Refer to product availability guide for other finish, size and grade offering.

Patterns: Typically stocked in T finish in the following sizes:

30x96, 120, 144;

36x96, 120, 144; 48x96, 120, 144;

60x96, 120, 144 in HGS & HGP grade.

48x96 & 60 x 144 in VGP grade.

Refer to product availability guide for other finish, size and grade offering.

Matrix: Typically stocked in T finish in the following sizes:

30x96, 120, 144;

36x96, 120, 144; 48x96, 120, 144;

60x96, 120, 144 in HGS & HGP grade.

48x96 & 60 x 144 in VGP grade.

Refer to product availability guide for other finish, size and grade offering.

Hallmark: Typically stocked in T finish in the following sizes:

30x96, 120, 144;

36x96, 120, 144; 48x96, 120, 144;

60x96, 120, 144 in HGP grade.

48x96 & 60 x 144 in VGP grade.

Refer to product availability guide for other finish, size and grade offering.

Woodgrain: Typically stocked in T finish in the following sizes:

30x96, 120, 144;

36x96, 120, 144; 48x96, 120, 144;

60x96, 120, 144 in HGS & HGP grade.

48x96 & 60 x 144 in VGP grade.

Refer to product availability guide for other finish, size and grade offering.

ChemArmor: Stocked in CA finish in the following sizes:

30x144;

48x96; 60x144 in HGL grade.

Refer to availability guide for pattern and size offering.

Static Dissipative: Typically stocked in T finish in the following sizes:

36x120, 144; 48x120, 144; 60x120, 144 in HGP grade.

Pure Metals: Typically stocked in the following sizes:

24x96, 120, sold in even quantities

48x96, 120.

Metallage: Typically stocked in 48x120 sheet sizes.

FINISHES AND PRICE DIFFERENTIAL GUIDE

MTO Guide:

HPL : 10 sheet minimum, non-refundable order, 30" widths sold in multiples of 2.

Fire Retardant: 10 sheet minimum in grades HGF, VFG, BKR-5 & BKR-3, Not available in postforming grades.

ChemArmor - 10 sheet minimum for any other textured Nevamar line item.

Cost Differential Guide

The price index is based on general purpose non-solid laminate in Textured Finish being equal to 1.0. The index is used to determine the approximate price of the various finishes by multiplying the cost of Textured by the index factor. Actual prices, however, will vary according to quantity and geographic area.

Finish	Product	Index
Textured	Woods/Patterns	1.0
Polished Velvet	Woods	1.0
High-Luster	Patterns	1.0
Velvet	Woods	1.0
Textured	Solid Colors	1.0
Textured	Matrix Series	1.1
Textured	Kaleidoscope	1.1
Textured	Palisades	1.1
Textured	Allusion	1.1
Gloss	Solid Colors	1.1
Textured	Black Magic Orbit	1.1
Textured	Sand'n'Shells	1.1
Textured	Chiasma	1.1
Textured	Hallmark Series	1.1
Crystal	Solid Colors	1.2
Crystal	Matrix	1.3
Leather	Solid Colors	1.3
Ashwood	Solid Colors	1.3
Chemical Resistant	ChemArmor	1.9
